Hummingbird SmartDrawers Standard Features

Drawer Access via Control Interface

Self recognizes drawer layout and mimics the physical layout for easy identification of drawers.

Secure Drawer Access

Enhanced security log-in options ensure only credentialed users can access drawer content.

Unlock Individual Drawers

Select individual drawer to unlock while keeping the remaining drawers locked to reduce errors.

Drawer Light

Illumination of the drawer helps user identify the location, contents, and lock status of the drawer.

Auto Kick-out

Optimally pushing drawers out by 40 mm makes reaching to open easy and quick.

Slam-lock

Simply push the drawer all the way in to lock it.

Removable Drawer

Easily remove drawers for cleaning, labeling, or loading and unloading the cabinet.

Removable Drawer Dividers

Neatly store your smaller supplies.

On-screen Labels

Digital labels can be created for better organization of the drawer content.

Paper Labels

Each drawer is equipped with a location for a paper label. (1" [2.5 cm] W x 3" [7.6 cm] L)

Emergency Manual Lock Override

In case of emergency, drawer access can be overridden manually by the cabinet key.

Multi-factor Authentication

When activated, specific drawers will only be permitted to multi-level password-protected authorized access.

Easy-to-clean Surfaces

Non-porous materials with a no-sharp-edges design makes cleaning easy.

Plug & Play

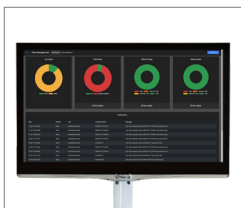

Ships assembled: add your peripherals/accessories and your SmartDrawers are ready to use.

Design Standards

Meets requirements of various international design standards including RoHS 3, REACH, CE, IEC 60601-1, IEC 62368, and ASTM D7386 Safety Handling and Shipping.
